## ABOUT US

We are a multidisciplinary biotechnology firm located in Chennai, India.

We provide extensive molecular-based testing for customers in the food, agriculture, aquaculture, pharma and consumer industries.

Our molecular biology-based testing methods help to evaluate the safety, identity, composition, and purity of biological substances and products.

At Nugenica we offer a specialized hands on training courses for various molecular techniques for students, research scholars etc. Some of course modules are as follows

## Basic Molecular Biology-I

- Introduction , Calculations, Reagent and Buffer preparation
- DNA Isolation and purification from different sources.
- RNA Isolation and purification from different sources.
- QC[Gel and Nanodrop]

## Basic Molecular Biology-II

- Introduction , Calculations, Reagent and Buffer preparation
- DNA/RNA Extraction and Quantification[Gel &Nanodrop]
- PCR and Agarose Gel Electrophoresis

## Advanced Molecular Biology Training - I

- Introduction , Calculations, Reagent and Buffer preparation
- DNA/RNA Extraction and Quantification[Gel &Nanodrop]
- PCR and Agarose Gel Electrophoresis
- Real-time PCR

## Advanced Molecular Biology Training - II

- Introduction , Calculations, Reagent and Buffer preparation
- DNA/RNA Extraction and Quantification[Gel &Nanodrop]
- RT-PCR (Hands on)

## Placement solutions

we also provide exclusive session on Placement solutions for all the training, project and internship students to give insight into job opportunities, placement, resume preparation, personality development, interview facing by an expert HR lead.

Interested candidates can fillup the registration form available in our website and sent to us through mail.

Training modules and duration can be customized upon request. For group enrollment and special offers please contact us.
